

2020

On-Site Lectures

June 22 Chiisanamori Nursery School (Workshop by ARTois and Towada Art Center)

September 16 Towada Nishi High School

October 14 Towadako Junior High School

This year, instead of offering work experience internships and social studies tours, the Towada Art Center offered on-site lectures to students at Towadako Junior High School and Towadanishi High School. At Towadako Junior High School, students learned about contemporary art through classroom lectures and workshops. To help students at Towada Nishi High School learn more about local tourism resources, we explained the origins of the art center and the process of creating artworks and exhibitions. At Chiisanamori Nursery School, we held workshops for local children who cannot visit the museum due to the coronavirus pandemic. Jim Lambie's *Zobop* is displayed prominently at the entrance of the Towada Art Center and was used as a motif for a work of art that the children created inside of Chiisanamori Nursery School.

*This was the eleventh collaborative workshop held between ARTois and the Towada Art Center.
